

# **TR-MONITOR-2**

## **Addressable Dual Monitor Module**

The TR-MONITOR-2 is an addressable monitor module with two initiating circuits for use with Triga fire alarm control panels (FACPs). The TR-MONITOR-2 acts as an interface to contact devices, such as waterflow switches and pull stations.

The TR-MONITOR-2 supports Class B supervised wiring to the load device. Conventional 4-wire smoke detectors can be monitored for alarm and trouble conditions.

Because the TR-MONITOR-2 is capable of monitoring two separate Class B circuits, it is ideal for waterflow tamper switch and flow switch monitoring.

### INSTALLATION

The TR-MONITOR-2 mounts directly into a 4" square electrical box. The box must have a minimum depth of 2-1/8". A surface mount electrical box (TR-SMB500) is available from Triga.

## **COMPATIBILITY**

The TR-MONITOR-2 is compatible with the following Triga Series FACPs:

- TR-2100R / ITR-2100B
- TR-2100ECSR / TR-2100ECSB
- TR-R2100R / TR-R2100B
